Purpose: Northwest Michigan Health Services, Inc. and the healthcare provider assigned to me will provide health care services through the use of live, two-way video (visual) and/or audio (sound) and other computer-based services.

I understand that the electronic services allow Provider to obtain information about my health status through electronic communications for the purpose of diagnosing and determining a treatment plan for certain non-emergency conditions.

I understand that the information provided or exchanged may be used for diagnosis; treatment plan development and review; and case management; and may include any or all of the following electronic communications: patient medical record documentation, live two-way video and audio files and transmission of images and other data.

Possible Risks: As with any use of technology, there are potential risks associated with the use of the electronic care services. I understand that these risks include, but may not be limited to, the following risks:

- Delays or errors in medical evaluation and treatment could occur due to deficiencies or failures of the equipment
- Information transmitted may not be sufficient to allow for appropriate medical decision making.
- Although precautions are taken to protect the confidentiality of information new security threats can develop. I understand that there may be other risks to the confidentiality and security of my personal information that neither Northwest Michigan Health Services nor I can anticipate at this time.

Patient Consent:

- I understand that no results can be guaranteed or assured.
- I understand that insurance companies and third-party payers, including Medicare and Medicaid, may not pay for electronic visits. If my insurance company or third-party payor does not pay for an electronic visit, I understand that I am responsible for paying for the Telehealth or Video Visit.
- I understand that the Provider may terminate a Telehealth Visit if the Provider determines that my condition requires immediate in-person care, or otherwise determines that a Telehealth Visit is not appropriate to meet my healthcare needs.
- I agree that Providers *may not* be able to prescribe certain types of medications, including controlled substances. I agree that any prescriptions I receive from an electronic visit will be used only by me, for my healthcare needs.

I have read this document carefully and understand the risks and benefits of the electronic services and wish to obtain services through electronic visits.
